

# Centre of Excellence-Undergraduate Physics Students Society

## Description

This academic society of physics students was framed on July-2018 .For proper functioning of the society some students were elected as office bearers like vice president, secretary. All the students studying physics of this college are the members of the society.

## Purpose and Mission

The aim of the society is to inculcate scientific values and temper among students and engaging them in various activities of the department round the session.

Further, the society offer valuable opportunities for presenting research, sharing insights, as well as related workshops and activities for scientific discussion, professional development, improving education, and science advocacy.

Other skills needed to flourish students professionally include effective communication and personal interactions, leadership experience and outreach services to the campus and local communities.

## Physics family

The Undergraduate Physics Students Society (UPSS) is a professional association explicitly designed for students and the family of physics of this college is always available to render their help and guidance to students. The Department is efficiently run by Dr. Pawan Sharma (HOD) and members Kirti Singha(Asst. Professor) and Dr. Brij Mohan(Asst. Professor).

<b>Patro</b>	<b>Dr. C.B.Mehta(Principal of the college)</b>
<b>President</b>	<b>Dr. Pawan K Sharma ( HOD)</b>
