

## Science day Celebration-An overview Centre of excellence GDC Sanjauli, Shimla-06

National Science Day is being celebrated every year to widely spread a message about the significance of scientific applications in the daily life of the people, to display all the activities, efforts and achievements in the field of science for human welfare, to discuss all the issues and implement new technologies for the development of science, and to encourage the people as well as popularize Science and Technology.

Science day-2019 with the theme “**Science for the people and people for the science**” was celebrated in the college by all Departments of science. Principal of the college Dr. C.B. Mehta presided over the programme. Every Department made its, best possible effort to popularize science and its impact on human behaviour. Under UPSS(undergraduate physics students society), Department of Physics displayed a exhibition stall in which students from semester IVth demonstrated the live Principle and working of **Van de graaff generator**.

Students from Ist year demonstrated the **refraction and diffraction of light through the prism** using spectrometer.

The students from VIth semester demonstrated the working and principle of **transformer and sensors** explaining how the electricity with specific voltage and frequency get transmitted to our houses.

This celebration was followed by a lecture on **“Kaleidoscopic view of Impact of Science and Technology on human development** by **Prof. P.K. Ahluwalia** from Department of Physics, Himachal Pradesh University, Shimla.
